- 5.Initiative – Proposed and executed eco-friendly campus projects

PROFILE

Aspiring Full Stack Developer currently mastering modern web technologies including React, Node.js, and Python. Building my skills in creating responsive applications with clean code and good architecture. While early in my journey, I bring strong problem-solving abilities, quick learning skills, and dedication to writing efficient, maintainable code. Excited to contribute to real-world projects and grow with a supportive development team.

EDUCATION

- Bachelor of Technology (B.Tech) in Computer Science & Engineering  
Dhemaji Engineering College, Assam | 2021 - 2025
- Higher Secondary (12th), Science  
Lakhiganj Higher Secondary School, Assam  
Percentage: 60.40% ( AHSEC Board)
- HSLC (10th)  
Bilasipara Public Higher Secondary School, Assam |  
Percentage: 75% (SEBA Board)

INTERNSHIPS

- Full Stack Developer Intern  
Indian Oil Corporation Limited (IOCL), Digboi | Jun 2024
- Developed secure internal tools using React + Node.js, improving operational efficiency by 30%
- Implemented JWT authentication for 200+ employees, enhancing data security
- Optimized SQL queries, reducing database response time by 40%
- Collaborated with cross-functional teams using Agile methodologies
- Web Development Trainee  
NIELIT, Guwahati | Jul - Aug 2023
- Built a full-stack e-commerce platform (React + Express.js + MongoDB) with payment integration
- Applied industry best practices in CI/CD, testing, and responsive design
- Delivered project 2 weeks ahead of deadline through efficient task prioritization

PROJECT

1. Geo Construct (Final Year Project ) | React, Node.js, MongoDB  
Developed a GIS-based construction management system for real-time project tracking  
Integrated geospatial analytics to optimize resource allocation  
Implemented JWT authentication and role-based access control  
Final Year project | 2024-2025
2. Employee Management System (IOCL Internship) | Python, Flask, MySQL  
Automated HR workflows including leave approval and payroll processing  
Designed 10+ relational tables with complex queries  
IOCL, Digboi | Jun 2024
3. E-Commerce Platform (NIELIT Training ) | React, Node.js, Stripe API  
Built a full-stack online store with product search, cart, and checkout  
Secured payments via Stripe API integration  
NIELIT, Guwahati | Jul-Aug 2023
